Objective

At exactly the half point of my degree, I feel confident about my skills as an Aerospace Engineer and am excited to look for internships. I believe I have the right technical skills and concepts and am ready to apply what I learned in class onto the real world. In particular, I am looking forward to working and getting a hands-on experience with aircraft and how they are maintained.

Education

Middle East Technical University, BS in Aerospace Engineering

Sept 2022 – *expected May*
2026

Pakistan International School Jeddah English Section, GCE Advanced Level

Sept 2020 – May 2022

Grade: 2A*2A

Subjects:

- Chemistry
- Computer Science
- Mathematics
- Physics

Pakistan International School Jeddah English Section, Cambridge IGCSE

Sept 2018 – May 2020

Grade: 5A*3A1B

Subjects:

- | | |
|---|------------------------|
| • Biology | • Islamiyat |
| • Chemistry | • Mathematics |
| • English as a Second Language | • Pakistan Studies |
| • Information and Communications Technology | • Physics |
| | • Second Language Urdu |

Relevant Coursework

- Introduction to Aerospace Engineering
- Introduction to Aircraft Performance
- Computer Aided Engineering Drawing I
- Thermodynamics
- Fluid Mechanics

Technical Skills

- AutoCAD
- Inventor
- MATLAB
- Programming in C and Python
- Microsoft Word, Excel, PowerPoint
- Adobe Illustrator
