Objective

At exactly the half point of my degree, I feel confident about my skills as an Aerospace Engineer and am excited to look for internships. I believe I have the right technical skills and concepts and am ready to apply what I learned in class onto the real world. In particular, I am looking forward to working and getting a hands-on experience with aircraft and how they are maintained.

Education

Middle East Technical University, BS in Aerospace Engineering Sept 2022 – *expected May* 2026

- GPA: 2.76/4.0

Pakistan International School Jeddah English Section, GCE Advanced Level Sept 2020 – May 2022

Grade: 2A*2A

Subjects:

- Chemistry
- Computer Science
- Mathematics
- Physics

Pakistan International School Jeddah English Section, Cambridge IGCSE Sept 2018 – May 2020

Grade: 5A*3A1B

Subjects:

- Biology
- Chemistry
- English as a Second Language
- Information and Communications Technology
- Islmaiyyat
- Mathematics
- Pakistan Studies
- Physics
- Second Language Urdu

Relevant Coursework

- Introduction to Aerospace Engineering
- Introduction to Aircraft Performance
- Computer Aided Engineering Drawing I
- Thermodynamics
- Fluid Mechanics

Technical Skills

- AutoCAD
- Inventor
- MATLAB
- Programming in C and Python
- Microsoft Word, Excel, PowerPoint
- Adobe Illustrator
